

## **Photographic Historical Society of New England Field Trips: 1973 – 2022**

An online supplement to the *New England Journal of Photographic History*, 2023, Issue 181.

See <https://phsne.org/journal>.

Central to PHSNE's mission is providing its members with a wide range of photographic experiences, field trips being just one. Over the past five decades, the Society has sponsored 45 such events, ranging from regional trips to visit photographically related organizations or to view a member's private collection — and extended trips to distant countries, exploring new photographic opportunities and cultures. These trips have no doubt greatly contributed to our member's knowledge and understanding of photography and its history.

<b>DATE</b>	<b>SITE</b>
